

**IN LOVING MEMORY  
OF OUR WONDERFUL DOG  
MONTY**

**12 May 2011 ~ 9 Sep 2017 (Age 6)**

***"Dogs are not our whole life, but they make our lives whole." - Roger Caras***

## **HOW MONTY COME INTO OUR LIVES**

**My wife loves dogs and used to volunteer to bathe the puppies at the Pet Shop we used for getting our pet supplies. While working there she met Brenda Ryan (a well-known Rottweiler breeder) and Joy Jay (who owns Monty's mother who she got from Brenda).**

**Brenda (left) and Joy (right)**

**Patsy became good friends with Brenda and Joy. It just so happened that our Rottweiler Kudo had just recently died and we were thinking about getting another dog. Joy had bred her female named Hoku with one of Brenda's male dogs named Mana. Joy promised my wife that she could have one of the male puppies.**

**Hoku (Monty's Mom)**

**Mana (Monty's Dad)**

**Well, as it turned out, Hoku had a litter with five (5) females and one (1) male on May 12, 2011.**

**Monty was biggest puppy in the Middle**

**Monty was a very handsome puppy**

**Monty at 6 weeks old**

**Joy kept her promised and Monty came home with us when he was 6 weeks old. We knew from the beginning that we had a very special dog.**

### **MORE PUPPY PICTURES**

**Monty with toy from Joy's house**

**Monty always wanted to be under something like a chair, table, or a bed**

**Our daughter Toni with Monty**

**Red Mud on this Nose**

**Patsy and Monty at the beach**

**As you can see, Monty didn't stay a little puppy for long. Monty could be very naughty at times. He torn up about 50 toys – only some of the tough "indestructible" ones remain. When Monty was a puppy, we had no rugs on our floors because Monty either used them as wee pads or he chewed them up. A lot**

of the wallpaper in the hall was ripped off or had been chewed on. We couldn't leave our rubber slippers or shoes anywhere Monty could get them. When we had the kids, grandkids or other friends over to the house, Monty just loved to steal their slippers and run away. He would steal our plumber Wayne's tools. We didn't have any grass in the front because he would dig it out and make a big hole in the ground. He got himself into big trouble by jumping into my wife planter and digging out her vegetables. He would pull off a dead palm tree branch and drag it into the house and proceed to shred it into little pieces making a mess. He liked to play in the red mud when it rains and then run into the house and jump on us. Other than that, he was a pretty good boy.

### **MONTY LOVED TO HELP US WITH THE YARD WORK**

**Tree trimming was his favorite**

**Monty would go right in the middle of the stack of tree limbs**

**Monty would carry the paper bag when we cleaned up the messes – Sometimes he would give me the bag without ripping it to shreds.**

**Every week when it was time to clean the pool, it was Monty's job to carry the brush.**

**THE DOG SHOW - Neal Blaisdell Park, Pearl City, Hawaii, June 17, 2012**

Brenda Ryan encouraged us to enter Monty in the Dog Show. So, we agreed but me and my wife Patsy are a little too old to be running around the dog circle with Monty so Brenda agreed to give Monty a little training and show him. She has showed her Rottweilers many times at various dog shows.

**Brenda providing Monty with some training at the Park near her home**

We arrived at the park early to get a picnic table to put our food and other stuff on. We needed a place to hang out until it was Monty's turn to perform.

**Here are Brenda and Monty waiting in the shade**

**Some of the competition**

**It's Monty's turn – The Judge is inspecting his teeth.**

**Monty performing in the circle – He did great!**

**And the WINNER is - MONTY – Here are a happy Brenda and Monty at the Judge's Table.**

**One of Monty's biggest fans – Joy Jay holding the First Place Ribbon.**

### **MONTY GETS A FRIEND – A FEMALE ROTTWEILER NAMED PATTI**

**Patti came from Romania and arrived at our house on July 17, 2013**

**Monty loved Patti girl from the moment he saw her**

**MONTY WAS A SOCIABLE DOG AND ENJOYED FAMILY & FRIENDS**

**Our son Mike always threatens to throw Monty in the pool so Monty jumps up on Mike and growls really loud.**

**Our daughter Tracy with grandkids Nick and Kayla and Monty**

**Here is Tracy's husband Ken telling Monty and Patti an interesting story – Well, maybe not – They might just be waiting for some food.**

**Once a month, hairdressers Cary and Percy come to our house to color, cut, and fix Patsy's hair. Every other month Percy cuts my hair. Sometimes our son Mike and grandson Nick get their hair cut. We always have good food to eat and cold beverages to drink. Well, Monty loved haircut day! He would jump on Cary and Percy to show his affection. They had to sit down quickly or get knocked down when they come in the gate. All day Monty would be trying to steal something like a comb or a curler or the grandkids swimming goggles.**

**Cary cutting Nick's hair – If you look closely you will see Monty right in the middle.**

**Here is a picture of Monty wearing the goggles he managed to steal from the grandkids.**

### **MONTY LOVED TO GO WALKING**

**Every Monday, Wednesday, and Friday I would take the dogs (one at a time) for a walk. Monty looked forward to walk day and would not let me forget when it was time to go. On his trip around the long block, he had many friends (dogs and people) to see. Yes, Monty was a big 140-pound imposing Rottweiler but out on the street he was the most friendly dog you can imagine.**

**On the next page, I will show you some of Monty's friends.**

**Monty loved the ladies and little girls**

**There are two female Rottweilers on our block that Monty liked**

**Yes, Monty was friends with everybody he met while out walking and everybody loved Monty**

## **CHRISTMAS**

**During every Christmas season that Monty was alive, my wife made sure that we had a Christmas Tree. Monty loved Christmas! I think he liked the tree more than his presents under it.**

**Top left – Monty would sleep near the Christmas tree**

**Top middle – A handsome Monty sitting near the tree**

**Top right – We could only decorate the top half of the tree. Otherwise Monty would steal the ornaments.**

**Bottom left – Monty would stick his head into the tree every morning to make sure it still smelled good.**

**Bottom center – Monty guarding some of his toys**

**Bottom right – Here is the mess after Monty and Patti got done opening their presents.**

**Our dogs have always helped me and my wife enjoy the Christmas holidays.**

## **MONTY AT PLAY**

**When Monty was young (before Patti come to live with us), he already had a lot of toys to play with but his big Red Ball on a rope was one of his favorites. After Patti came, they always played together.**

**Monty and Patti sharing a toy**

**Monty and Patti playing with a stick**

**Monty and Patti playing with our daughter Tracy**

**Monty and Patti playing with each other**

**HERE ARE A FEW MORE PHOTOS OF MONTY**

**Monty was very intelligent and did a lot of deep thinking**

**These are the last two pictures we took of Monty. They were taken on Monday, September 4, 2017.**

## **A FEW SHORT STORIES THAT DEMONSTRATE MONTY'S CHARACTER LIFE SAFER**

*Monty was very close to my wife Patsy. When he was a little puppy, he used to sleep on her chest. While I was at work Monty stayed close to her. Even when Patti come into our lives, Monty stayed close to Patsy and Patti stayed close to me. At night, Monty stayed near my wife in the Family Room where she slept and Patti stayed in the bedroom where I slept.*

*Patsy has some health issues including heart disease and diabetes. Patsy tells of multiple times where her blood sugar level became dangerously low and she was about to go into a diabetic coma. Somehow Monty sensed something was wrong and would wake her up before she went into the coma. Monty would jump up on the bed and lick Patsy's face and if that didn't wake her, he would bark at her until she woke up and did something about her condition.*

*Patsy says that Monty was so in tune with her breathing pattern that he knew when something was wrong with her.*

## **DASANI WATER**

*Our dogs always had a bucket of fresh cold water in the house and outside in the patio. However, Patsy started giving Monty a bowl of the Dasani water that she was drinking. Well, Monty decided that he liked the Dasani water much better than the tap water in the bucket. He stopped drinking out of the bucket and demanded Dasani water in his bowl.*

*If his bowl was empty or the water was too warm or if there were any specks of dirt in it, he would sit by the bowl (see picture on the right) and make a disgusted noise until he got a fresh bowl of Dasani water.*

*Patti girl was not so fussy. She would drink water from the bucket or from Monty's bowl of Dasani water.*

## **MONTY AND THE UFO**

*When our new dog Patti come to live with us, I spent a lot more time outside after dark. Patti was not fully trained to not pee on floor so she didn't have the run of the house like our other dog Monty. So, I usually stay outside with Patti and Monty until it is time to go to bed – about 8:30 or 9:00 o'clock.*

*On Tuesday, 27 Aug 2013, at about 8PM, me and the dogs were outside in the front by the pool when all of a sudden I saw these two things flying in the east sky over Mililani. They were both the same color – green and red lights on the ends with a yellowish white color in the middle. They could move in any direction at a very high rate of speed - like go across the sky in 2 or 3 seconds. They moved fast or slow and could stop suddenly and then go again. They made no noise that I could hear. The shape of both UFOs was the same and appeared to be oblong but could have been circular. They were in the sky for at least 20 minutes. I had never seen anything like this in my life, so I run in the house to get my camera and told my wife to come out to see the UFOs. My wife called a couple of the neighbor ladies to also come outside and take a look. I attempted to take some pictures but they didn't turn out very good. You could see the UFOs much better with the naked eye.*

*About the time I put the camera away and was about to bring the dogs in for the night, I hear Monty barking like crazy. I look up and there is one of the UFOs hovering right over our house. The aliens from space must have wanted to get a better look at that creature down there on the ground barking at them. I thought for a second or two that Monty and I were going to be "beamed" up to the spaceship. But then it zipped off into space and both UFOs disappeared.*

## **MONTY LIKED TO HOWL**

*Yes, Monty would howl really loud every time a fire truck, ambulance, or police car went down the highway with their siren on. Monty would also howl if he had an extra loud squeaky toy. We would hear SQUEAK... SQUEAK...SQUEAK... and then Monty would start howling. Patti would look at him like he was crazy. Why do dogs howl? Well, dogs are close descendants of wolves and we all know that wolves like to howl - especially at the moon.*

## **RIDING IN THE TRUCK**

*Monty liked to go riding in the truck but was a bit particular about where we were going. If we going to go look for chickens and cats or if I was going to the dump or if I was going to a restaurant take out, he was ready to go. All the workers at the dump knew Monty and would come to the truck and talk to him. Monty liked Ruby Tuesdays because the lady always gave him a big hug.*

*When Patsy went for the ride, Monty was definitely going. Patsy would sit in the back seat with Patti and Monty would ride “shotgun” in the front. Occasionally, Monty would go in the back seat and cause trouble with my wife and try to seat on her lap like he did when he was a puppy.*

*Patti always wanted to go riding. However, if I was just going for the paper or just going to MacDonal’d’s or someplace like that, Monty preferred to stay home with Patsy.*

**Chicken at Mililani Tech Park**

**Take Out at Ruby Tuesdays**

## **THE HANDICAPPED BOY**

*Something “touching” happened recently while I was out walking around the block with Monty. A man was pushing a severely crippled (handicapped) boy in a wheelchair. When we got near them, I could tell that the man was getting nervous about going past Monty. I assured him that Monty was a very friendly dog. It was about this time that Monty dragged me over to the wheelchair where he stared at the boy for a few seconds and then give him a big lick on the face. The man told me that this was the first time he had ever seen the boy smile.*

*The boy had a friend!*

## **SOME CLOSING THOUGHTS**

**The year 2017 has been a very bad year for our family. Losing both of our beloved dogs is hard to take. Both Monty and Patti were wonderful dogs. At least now they are back together again in Heaven.**

**Patti died on August 7, 2017 at age 5 from Lymphoma cancer.**

**Just a little over a month later...**

**Monty died on September 9, 2017 at age 6 from Acute Pancreatitis.**

**This quote pretty much sums up our feelings for all the pets we have had over the years:**

**"What we have once enjoyed, we can never lose; all that we love deeply becomes a part of us." - Helen Keller**

## **EPILOGUE**

**The day Monty died we found out that Brenda Ryan has two female Rottweilers at her house that are almost ready to have puppies. We will have another dog in a few short weeks.**

**GOD BLESS MONTY AND PATTI**
